

WEBINAR 3

ASSESSMENT OF DIAGNOSTIC GAPS AND RELEVANT DIGITAL HEALTH SOLUTIONS IN NIGERIA

NOVEMBER 10, 2020

12:30PM – 1:30PM WAT / CET

FIND and EIC led a first-of-its-kind assessment to help prioritize digital health solutions – new and existing – that could address diagnostic gaps to improve healthcare service delivery in Nigeria. The findings are based on interviews with in-country experts from government, implementing partners, patient advocates and digital health experts/vendors, and a national-level mobile survey plus desk research to validate key findings. Join us for an exclusive FIND webinar on these assessments, which includes an interactive panel discussion on the findings from Nigeria.

AGENDA

Assessment objective overview and methodology – Rigveda Kadam, FIND	5 mins
Review of country-specific findings – Rajnee Singh, EIC	10 mins
Panel discussion on the country-specific findings – Moderated by Heidi Albert, FIND	30 mins
Q&A – Moderated by Heidi Albert, FIND	10 mins
Closing – Rigveda Kadam, FIND	5 mins
